Protect and advance your organization with Services from Kodak Alaris

Repair & Maintenance Services

Our service plans are designed to keep your organization productive and maximize your investments for many years to come. As a multi-vendor service organization, Kodak Alaris is uniquely skilled to serve customers with hardware from a variety of manufacturers. Our Service team is recognized around the world for its responsiveness, professionalism, and exceptional technical expertise that is unmatched in our industry.

Professional Services

What would it mean for your business if important information were always delivered where it needs to be? If every document, email, or handwritten form were all digitally organized, processed, and delivered to your business systems and applications? That's what our consultants help you achieve, with cost-effective document automation solutions that make sense.

Makes Sense

The perfect scan. Everytime.

Kodak Alaris is a leading provider of information capture solutions that simplify business processes. We exist to help the world make sense of information with smart, connected solutions powered by decades of image science innovation. Our award-winning range of scanners and solutions aim for a flawless scan, seamless OCR detection and accurate extraction, distribution and storage of your information.

A perfect page, every time

Perfect Page technology from Kodak Alaris utilises features such as deskewing (page straightening), auto-brightening, colour correction, streak and noise removal to create an optimal digital capture of your documents for seamless OCR processing and automation.

Folds, wrinkles or shadows – not a problem

Not all pages are flat, some have creases, bends or folds. Exclusive to Kodak Alaris, our Dual Illumination technology eliminates shadows and other flaws that often occur when originals are damaged or less than perfect. This creates an ideal scan environment and delivers an enhanced scan which can truly be used by your organisation.

We optimise, so you save

Our OCR read rate is 20% better than the leading competitor. We focus on capturing the highest quality image, meaning less rescans, increased extraction rates, reduced process times and reduced manual validation, meaning you save time and money. If you want to capture and read information on a page then our products provide the best results, proven.

Space saving

In an age where data storage cost money we maintain image quality, just in a smaller file size. By compressing captured images at a rated speed, we eliminate the need for large local and network storage and enable swift distribution through email and other channels.

Do more with your data, as standard

Easily capture, store, file and distribute your documents at the touch of a button. Whether you're using Smart Touch technology from Kodak Alaris or our more in-depth KODAK Capture Pro Software, you can quickly and easily automate the flow of your scanned documents, to wherever you need them. Smart Touch technology and KODAK Capture Pro Software Limited Edition (LE) are provided free of charge with all desktop products.

Support, straight out of the box

With up to 3 years Advanced Unit Replacement with free Next Business Day scanner delivery, and up to 1 year free on-site support, you can have peace of mind that you're looked after when you purchase a product from Kodak Alaris.

From digitisation to transformation, Kodak Alaris is there from the start. We transform documents and data into information better than anyone else bringing speed, accuracy, and profitability to your business.
